

Easter Egg Card Craft

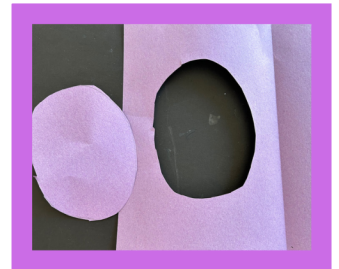

You will need:

- **Construction paper**
- **Scissors**
- **Glue**
- **Crayons/markers**
- **Anything else you want to decorate with**

Each student will need one full sheet and 2 half sheets of paper.

Fold the full sheet in half and cut out an egg shape. If you're really careful you can save the egg shape and use it in another project.

Have students tear the paper into strips.

If you have scrapbook paper, that would be really fun to use.

Easter Egg Card Craft

Repeat tearing with second paper.

Glue inside left side of the open card.

Lay strips over the glue.

Decorate inside and out.
